

THE INSTRUMENTS OF TASTE

PEUGEOT SAVEURS RANGE 2026

FROM MARCH 1<sup>ST</sup>

## PEUGEOT OUR EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 229 people and manufactures the world's best-known mills!  
The whole process is carried out onsite – from design, to technical development, to production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

### EXPERTISE IN FOUR KEY AREAS

#### METAL

Ever since the company was founded, metalworking has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high-quality steel to guarantee an unrivalled level of durability. We are so sure of our quality that our mechanisms come with a lifetime warranty.

#### WOOD

Our factory features one of the largest woodturning facilities in Europe. We can draw on our traditional expertise to design and produce the mills in our factory from start to finish. Our turning skills can transform a rough block of wood into a stylish table mill.

#### PAINTING

Once the wood has been turned in our workshops, it is painted in a wide range of colors, whether natural finishes, bright colors, matte tones or lacquer.

#### ASSEMBLY

All Peugeot mills are assembled in our workshops. Every piece passes through our employees' expert hands as they constantly focus on scrutinising every mill for the slightest imperfection and assembling our mills with the greatest of care. As such, we can guarantee that our products offer the ultimate in quality and harmony.

If our company ever requires an area of expertise that lies outside the company, we only work with the most exclusive partners.

For example, the European glass factories that produce our decanters are experts in the traditional technique of mouth-blowing and hand-finishing glass, meaning that every product is truly unique.

PEUGEOT INVENTS  
POWDERED SALT

ALL THE PLEASURE OF SALT  
WITH 3 TIMES LESS SALT

**Material innovation: Zirconia**

- Material used in particularly demanding fields: health, cosmetics, automotive, aeronautics
- Corrosion resistance even in areas of very high humidity
- Exceptional hardness, higher than conventional ceramic or steel
- Complete safety allowing "tooth-to-tooth" contact
- Lifetime warranty

**Meticulous design**

Studied with the greatest precision, the design of the mechanism ensures a perfect grind of the world's salts and aromatic blends.

The exceptional hardness of zirconia, combined with the design of the mechanism, are at the heart of the performance of the Zirlion mechanism, allowing tooth-to-tooth contact, and therefore powdered salt grinding, without the risk of altering the mechanism.

**SPECIAL WET SALT**

The very high humidity of wet sea salt requires additional adaptations of the Zirlion mechanism:

- Patented brewing fins
- Corrosion-resistant materials (mill axis)

**Powdered Salt**

Unrivaled milling performance:

- The powdered salt grind delivered by Zirlion offers the pleasure of salt while limiting its harmful effects
- Extreme fineness of salt
  - Immediate perception on the taste buds
  - All the pleasure of salt with a smaller quantity, thus limiting its harmful effects

From April 2026, all salt mills will be equipped with the Zirlion mechanism except the Mignonette and Palace models (September 2026) and the Elis Sense electric mill.

# Grill to Table

## The art of barbecuing

Much more than just a way of cooking, the barbecue is now a real art of living, synonymous with sharing and conviviality. Easy to use, it invites creativity: meat, fish, vegetables, or even desserts... everything lends itself to the game of grilling!

Carefully manufactured in France, in our factory located in central Brittany, our products ensure an even distribution of heat. The result: controlled cooking, preserved flavours.

Thanks to their intense and shiny black colour, our products combine performance and elegance: real cooking instruments that turn into serving dishes, keeping dishes warm thanks to the natural inertia of the ceramic.

**PLANCHAS** Wide cooking surface and high edges to handle food without splashing. Built-in groove for collecting juices, and rounded edges for a comfortable and secure grip.

PEUGEOT SAVEURS RANGE 2026  
FROM MARCH 1<sup>ST</sup>

## PEUGEOT OUR EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 229 people and manufactures the world's best-known mills!  
The whole process is carried out onsite – from design, to technical development, to production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

### EXPERTISE IN FOUR KEY AREAS

#### METAL

Ever since the company was founded, metalworking has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high-quality steel to guarantee an unrivalled level of durability. We are so sure of our quality that our mechanisms come with a lifetime warranty.

#### WOOD

Our factory features one of the largest woodturning facilities in Europe. We can draw on our traditional expertise to design and produce the mills in our factory from start to finish. Our turning skills can transform a rough block of wood into a stylish table mill.

#### PAINTING

Once the wood has been turned in our workshops, it is painted in a wide range of colors, whether natural finishes, bright colors, matte tones or lacquer.

#### ASSEMBLY

All Peugeot mills are assembled in our workshops. Every piece passes through our employees' expert hands as they constantly focus on scrutinising every mill for the slightest imperfection and assembling our mills with the greatest of care. As such, we can guarantee that our products offer the ultimate in quality and harmony.

PEUGEOT INVENTS  
POWDERED SALT

ALL THE PLEASURE OF SALT  
WITH 3 TIMES LESS SALT

**Material innovation: Zirconia**

- Material used in particularly demanding fields: health, cosmetics, automotive, aeronautics
- Corrosion resistance even in areas of very high humidity
- Exceptional hardness, higher than conventional ceramic or steel
- Complete safety allowing "tooth-to-tooth" contact
- Lifetime warranty

**Meticulous design**

Studied with the greatest precision, the design of the mechanism ensures a perfect grind of the world's salts and aromatic blends.

The exceptional hardness of zirconia, combined with the design of the mechanism, are at the heart of the performance of the Zirlion mechanism, allowing tooth-to-tooth contact, and therefore powdered salt grinding, without the risk of altering the mechanism.

**SPECIAL WET SALT**

The very high humidity of wet sea salt requires additional adaptations of the Zirlion mechanism:

- Patented brewing fins
- Corrosion-resistant materials (mill axis)

**Powdered Salt**

Unrivaled milling performance:

- The powdered salt grind delivered by Zirlion offers the pleasure of salt while limiting its harmful effects
- Extreme fineness of salt
  - Immediate perception on the taste buds
  - All the pleasure of salt with a smaller quantity, thus limiting its harmful effects

From April 2026, all salt mills will be equipped with the Zirlion mechanism except the Mignonette and Palace models (September 2026) and the Elis Sense electric mill.

Carefully manufactured in France, in our factory located in central Brittany, our products ensure an even distribution of heat. The result: controlled cooking, preserved flavours.

Thanks to their intense and shiny black colour, our products combine performance and elegance: real cooking instruments that turn into serving dishes, keeping dishes warm thanks to the natural inertia of the ceramic.

PEUGEOT SAVEURS SNC - ZA La Blanchotte 25440 Quingey France  
Tél. +33 3 81 63 79 00 - Fax. +33 3 81 63 66 08 - Email: contact@peugeot-saveurs.com

## I – SCOPE OF APPLICATION

1.1. These Standard Terms and Conditions of Export Sales apply to all orders, deliveries and services between PEUGEOT SAVEURS SNC, an unlimited partnership incorporated in the Besançon Register number 876 180 168, at its registered office located at 25440 QUINGEY FRANCE (hereafter PEUGEOT SAVEURS) and its customers, whose registered office is outside mainland France (hereafter the Customer).

1.2. With the exception of any special terms and conditions, endorsements or amendments hereto expressly agreed by the parties in writing, the relationship between the parties shall be governed exclusively and exclusively by these Standard Terms and Conditions of Export Sales.

1.3. Any failure by PEUGEOT SAVEURS to exercise any one of the provisions hereunder at any time shall not be construed as a waiver of its right to subsequently enforce the same provision. Similarly, if any one of the provisions herein is held to be invalid, the remaining provisions will remain in full force and effect.

1.4. Orders that are placed in pursuance of these Standard Terms and Conditions of Export Sales will only be validated if expressly accepted by PEUGEOT SAVEURS. When the Customer is not required to make payment in advance, the sales agreement will become binding when PEUGEOT SAVEURS issues an order confirmation. When PEUGEOT SAVEURS requires the Customer to make an advance payment, the sales agreement will become binding when PEUGEOT SAVEURS issues a pro forma invoice corresponding to the advance payment.

2.2. Once the order has been validated as set out in 2.1 above, the Customer may not withdraw, amend or cancel the order on any grounds whatsoever unless specifically agreed in writing by PEUGEOT SAVEURS. Any payment made upon placing an order will be retained as a deposit by PEUGEOT SAVEURS. Any amendments or additions to the order, especially relating to delivery times, quantities and products, will be subject to express authorisation from PEUGEOT SAVEURS.

3.1. Unless otherwise expressly stated, each party's delivery-related obligations (transport, insurance, customs clearance, etc.) are as defined by the EX WORKS Incoterm (2020) version of the INCOTERMS published by the International Chamber of Commerce). Therefore, the

quantities and condition of the parcels delivered, the Customer will have forty-eight(48) hours from receiving the parcels on issues PEUGEOT SAVEURS in writing. If the Customer fails to report any issues in the aforementioned time, the parcels will be deemed to conform to the order in terms of quantity and quality. Any claims relating to the parcels, and/or quality of the goods, that are submitted after the 48-hour period will be considered void. The invoice will only be admissible if proof can be provided of the number and condition of the parcels received, and PEUGEOT SAVEURS shall not be liable for the risks inherent in transporting and unloading goods. The Customer will be responsible for providing any supporting evidence to substantiate the defects or errors reported. The Customer shall give PEUGEOT SAVEURS every facility to establish the existence of and, if necessary, remedy such defects and errors.

3.7. The return of goods will not be accepted without prior authorization given in writing by PEUGEOT SAVEURS. If authorised goods must be returned in their original packaging.

## IV – PRICES AND PAYMENT

4.1. Unless otherwise stipulated, all exclusive of shipping costs and at the applicable rate works according to the PEUGEOT SAVEURS price lists and schedules, as of the date the order is accepted or, as of the delivery date if delivery is requested for a date later than the change in price. PEUGEOT SAVEURS invoices shall be paid according to the details and terms specified on the order confirmation or pro forma invoice. In case of a partial delivery, PEUGEOT SAVEURS may issue a corresponding invoice. The Customer's bank drafts and cheques will only be considered as payment after they have actually been cleared and cashed, and provided that adequate funds are available.

4.2. In the event of a change in the Customer's legal, financial or economic situation, PEUGEOT SAVEURS shall be authorised to unilaterally modify any debt calling granted and/or the payment terms and terms without prior notice even after orders have been partially fulfilled. In particular, PEUGEOT SAVEURS may require a cash payment prior to delivery.

4.3. In the event of failure to pay any sums owed as part of the relationship between PEUGEOT SAVEURS and the Customer, the consequences below will occur on the date following the payment due date indicated on the invoice issued by PEUGEOT SAVEURS SNC. The fulfillment and delivery of all current orders will automatically be

suspended. All outstanding bills will become immediately payable in full, and any discounts granted will automatically be cancelled.

The Customer will become subject to the imposition of a penalty set at three times the applicable legal rate in France, and such penalty will be immediately payable and shall accrue from the date the invoice is issued. PEUGEOT SAVEURS will not be liable for any other rights and remedies to which the imposition of a fixed charge and cover collection costs as stipulated in Section D 441-S of the French Commercial Code (currently forty (40) euros).

4.4. Any delay in payment or any unilateral modification to the payment terms without prior written authorisation from PEUGEOT SAVEURS will result in the same consequences as non-payment.

4.5. If the Customer fails to comply with any one of the provisions in these Standard Terms and Conditions of Export Sales or any one of the special conditions stipulated in the pro forma invoice and/or order confirmation, PEUGEOT SAVEURS will retain any instalments paid by the Customer by way of damages, without prejudice to any other rights and remedies.

## V – RETENTION OF TITLE CLAUSE

The Customer may not modify, transform, alter or resell the products. The Customer will continue to be liable for the risks of loss or deterioration in the products delivered, as well as any damage that the products may incur or entail, irrespective of the cause, including cases of force majeure and events beyond its reasonable control.

5.3. Until the delivered order has been paid in full to PEUGEOT SAVEURS, the Customer shall not pledge the products supplied or assign ownership thereof by way of security. If a third party seizes or attempts to seize the products, the Customer shall assert the right of ownership and promptly notify PEUGEOT SAVEURS. The Customer will be exclusively liable for all expenses incurred in applying this retention of title clause.

5.4. If the validity of the retention of title clause stipulated in 5.3 is subject to specific conditions or laws in the destination country, the Customer is responsible for

after the Customer has received the product in question, even if the defect or fault is discovered after that date.

6.3. Products will only be replaced as specified in 6.2 if the Customer has sent written notice of the defect with confirmation the same day to PEUGEOT SAVEURS by registered or certified mail with return receipt requested and has immediately returned the products, including payment of transport costs, to the address indicated by PEUGEOT SAVEURS after receiving written authorisation from PEUGEOT SAVEURS.

6.4. The Customer shall not attempt to repair, or affect a third party to repair, the defects or faults liable to affect the products supplied.

## VI – PRODUCT QUALITY

6.1. The Customer is bound to inspect the supplied goods on receipt. Any patent defects in the products supplied must be reported within fifteen (15) days of receipt. The products concerned will only be replaced or refunded, and will not give rise to any contribution towards any direct contribution towards any direct and/or consequential damage incurred. PEUGEOT SAVEURS will be free to decide what will happen to the products, whether it be their return, replacement or refund.

6.2. In the event of a latent defect, PEUGEOT SAVEURS will only be bound to replace the products, and the products concerned will not give rise to any contribution towards any direct and/or consequential damage incurred. Any claims must be brought within two (2) years of discovering the latent defect. In all cases, no claims may be brought after a period of five (5) years

PEUGEOT SAVEURS RANGE 2026

FROM MARCH 1<sup>ST</sup>

## PEUGEOT OUR EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 229 people and manufactures the world's best-known mills!  
The whole process is carried out onsite – from design, to technical development, to production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

### EXPERTISE IN FOUR KEY AREAS

#### METAL

Ever since the company was founded, metalworking has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high-quality steel to guarantee an unrivalled level of durability. We are so sure of our quality that our mechanisms come with a lifetime warranty.

#### WOOD

Our factory features one of the largest woodturning facilities in Europe. We can draw on our traditional expertise to design and produce the mills in our factory from start to finish. Our turning skills can transform a rough block of wood into a stylish table mill.

#### PAINTING

Once the wood has been turned in our workshops, it is painted in a wide range of colors, whether natural finishes, bright colors, matte tones or lacquer.

#### ASSEMBLY

All Peugeot mills are assembled in our workshops. Every piece passes through our employees' expert hands as they constantly focus on scrutinising every mill for the slightest imperfection and assembling our mills with the greatest of care. As such, we can guarantee that our products offer the ultimate in quality and harmony.

If our company ever requires an area of expertise that lies outside the company, we only work with the most exclusive partners.

For example, the European glass factories that produce our decanters are experts in the traditional technique of mouth-blowing and hand-finishing glass, meaning that every product is truly unique.

PEUGEOT INVENTS  
POWDERED SALT

ALL THE PLEASURE OF SALT  
WITH 3 TIMES LESS SALT

**Material innovation: Zirconia**

- Material used in particularly demanding fields: health, cosmetics, automotive, aeronautics
- Corrosion resistance even in areas of very high humidity
- Exceptional hardness, higher than conventional ceramic or steel
- Complete safety allowing "tooth-to-tooth" contact
- Lifetime warranty

**Meticulous design**

Studied with the greatest precision, the design of the mechanism ensures a perfect grind of the world's salts and aromatic blends.

The exceptional hardness of zirconia, combined with the design of the mechanism, are at the heart of the performance of the Zirlion mechanism, allowing tooth-to-tooth contact, and therefore powdered salt grinding, without the risk of altering the mechanism.

**SPECIAL WET SALT**

The very high humidity of wet sea salt requires additional adaptations of the Zirlion mechanism:

- Patented brewing fins
- Corrosion-resistant materials (mill axis)

**Powdered Salt**

Unrivaled milling performance:

- The powdered salt grind delivered by Zirlion offers the pleasure of salt while limiting its harmful effects
- Extreme fineness of salt
  - Immediate perception on the taste buds
  - All the pleasure of salt with a smaller quantity, thus limiting its harmful effects

From April 2026, all salt mills will be equipped with the Zirlion mechanism except the Mignonette and Palace models (September 2026) and the Elis Sense electric mill.

# Grill to Table

## The art of barbecuing

Much more than just a way of cooking, the barbecue is now a real art of living, synonymous with sharing and conviviality. Easy to use, it invites creativity: meat, fish, vegetables, or even desserts... everything lends itself to the game of grilling!

Carefully manufactured in France, in our factory located in central Brittany, our products ensure an even distribution of heat. The result: controlled cooking, preserved flavours.

Thanks to their intense and shiny black colour, our products combine performance and elegance: real cooking instruments that turn into serving dishes, keeping dishes warm thanks to the natural inertia of the ceramic.

**PLANCHAS** Wide cooking surface and high edges to handle food without splashing. Built-in groove for collecting juices, and rounded edges for a comfortable and secure grip.

THE INSTRUMENTS OF TASTE

PEUGEOT SAVEURS RANGE 2026

FROM MARCH 1<sup>ST</sup>

## PEUGEOT OUR EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 229 people and manufactures the world's best-known mills!  
The whole process is carried out onsite – from design, to technical development, to production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

### EXPERTISE IN FOUR KEY AREAS

#### METAL

Ever since the company was founded, metalworking has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high-quality steel to guarantee an unrivalled level of durability. We are so sure of our quality that our mechanisms come with a lifetime warranty.

#### WOOD

Our factory features one of the largest woodturning facilities in Europe. We can draw on our traditional expertise to design and produce the mills in our factory from start to finish. Our turning skills can transform a rough block of wood into a stylish table mill.

#### PAINTING

Once the wood has been turned in our workshops, it is painted in a wide range of colors, whether natural finishes, bright colors, matte tones or lacquer.

#### ASSEMBLY

All Peugeot mills are assembled in our workshops. Every piece passes through our employees' expert hands as they constantly focus on scrutinising every mill for the slightest imperfection and assembling our mills with the greatest of care. As such, we can guarantee that our products offer the ultimate in quality and harmony.

If our company ever requires an area of expertise that lies outside the company, we only work with the most exclusive partners.

For example, the European glass factories that produce our decanters are experts in the traditional technique of mouth-blowing and hand-finishing glass, meaning that every product is truly unique.

PEUGEOT INVENTS  
POWDERED SALT

ALL THE PLEASURE OF SALT  
WITH 3 TIMES LESS SALT

**Material innovation: Zirconia**

- Material used in particularly demanding fields: health, cosmetics, automotive, aeronautics
- Corrosion resistance even in areas of very high humidity
- Exceptional hardness, higher than conventional ceramic or steel
- Complete safety allowing "tooth-to-tooth" contact
- Lifetime warranty

**Meticulous design**

Studied with the greatest precision, the design of the mechanism ensures a perfect grind of the world's salts and aromatic blends.

The exceptional hardness of zirconia, combined with the design of the mechanism, are at the heart of the performance of the Zirlion mechanism, allowing tooth-to-tooth contact, and therefore powdered salt grinding, without the risk of altering the mechanism.

**SPECIAL WET SALT**

The very high humidity of wet sea salt requires additional adaptations of the Zirlion mechanism:

- Patented brewing fins
- Corrosion-resistant materials (mill axis)

**Powdered Salt**

Unrivaled milling performance:

- The powdered salt grind delivered by Zirlion offers the pleasure of salt while limiting its harmful effects
- Extreme fineness of salt
  - Immediate perception on the taste buds
  - All the pleasure of salt with a smaller quantity, thus limiting its harmful effects

From April 2026, all salt mills will be equipped with the Zirlion mechanism except the Mignonette and Palace models (September 2026) and the Elis Sense electric mill.

These Standard Terms and Conditions of Export Sales apply to all orders, deliveries and services between PEUGEOT SAVEURS SNC, an unlimited partnership incorporated in the Besançon Register under number 876 180 168, and its registered office located at 25440 QUINGEY FRANCE (hereafter PEUGEOT SAVEURS) and its customers, whose registered office is outside mainland France (hereafter the Customer).

1.2. With the exception of any special terms and conditions, endorsements or amendments hereto expressly agreed by the parties in writing, the relationship between the parties shall be governed exclusively and exhaustively by these Standard Terms and Conditions of Export Sales.

1.3. Any failure by PEUGEOT SAVEURS to exercise any one of the provisions hereunder at any time shall not be construed as a waiver of its right to subsequently enforce the same provision. Similarly, if any one of the provisions herein is held to be invalid, the remaining provisions will remain in full force and effect.

## II – ORDERS

When the Customer is not required to make payment in advance, the sales agreement will become binding when PEUGEOT SAVEURS issues an order confirmation. When PEUGEOT SAVEURS requires the Customer to make an advance payment, the sales agreement will become binding when PEUGEOT SAVEURS issues a pro forma invoice corresponding to the advance payment.

2.2. Once the order has been validated as set out in 2.1 above, the Customer may not withdraw, amend or cancel the order on any grounds whatsoever unless specifically agreed in writing by PEUGEOT SAVEURS. Any payment made upon placing an order will be retained as a deposit by PEUGEOT SAVEURS. Any amendments or additions to the order, especially relating to delivery times, quantities and products, will be subject to express authorisation from PEUGEOT SAVEURS.

## III – DELIVERY TERMS AND TIMES

3.2. If the Customer fails to report any issues in the aforementioned time, the parcels will be deemed to conform to the order in terms of quantity and quality. Any claims relating to the parcels, and/or quality of the goods, shall be submitted after the 48-hour period and will be considered inadmissible.

3.3. The invoice, which is the only bill of lading, shall be provided to the Customer in the number and condition of the parcels received, and PEUGEOT SAVEURS shall not be liable for the risks inherent in transporting and unloading goods. The Customer will be responsible for providing any supporting evidence to substantiate the defects or errors reported. The Customer shall give PEUGEOT SAVEURS every facility to establish the existence of and, if necessary, remedy such defects and errors.

PEUGEOT SAVEURS invoices shall be paid according to the details and terms specified on the order confirmation or pro forma invoice. In case of a partial delivery, PEUGEOT SAVEURS may issue a corresponding invoice. The Customer's bank drafts and cheques will only be considered as payment after they have actually been cleared and cashed, and provided that adequate funds are available.

4.2. In the event of a change in the Customer's legal, financial or economic situation, PEUGEOT SAVEURS shall be authorised to unilaterally modify any debt calling granted and/or the payment terms and terms without prior notice even after orders have been partially fulfilled. In particular, PEUGEOT SAVEURS may require a cash payment prior to delivery.

4.3. In the event of failure to pay any sums owed as part of the relationship between PEUGEOT SAVEURS and the Customer, the consequences below will occur on the date following the payment due date indicated on the invoice issued by PEUGEOT SAVEURS SNC.

4.4. Any delay in payment or any unilateral modification to the payment terms without prior written authorisation from PEUGEOT SAVEURS will result in the same consequences as non-payment.

4.5. If the Customer fails to comply with any one of the provisions in these Standard Terms and Conditions of Export Sales or any one of the special conditions stipulated in the pro forma invoice and/or order confirmation, PEUGEOT SAVEURS will retain any instalments paid by the Customer by way of damages, without prejudice to any other rights and remedies.

## V – RETENTION OF TITLE CLAUSE

5.1. PEUGEOT SAVEURS will retain ownership of all the goods delivered until the principal tax and ancillary costs have effectively been paid in full. Failure to meet any one of the payment due dates may lead to a claim to recover the products ordered.

PEUGEOT SAVEURS RANGE 2026  
FROM MARCH 1<sup>ST</sup>

## PEUGEOT OUR EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 229 people and manufactures the world's best-known mills!  
The whole process is carried out onsite – from design, to technical development, to production.

The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

### EXPERTISE IN FOUR KEY AREAS

#### METAL

Ever since the company was founded, metalworking has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high-quality steel to guarantee an unrivalled level of durability. We are so sure of our quality that our mechanisms come with a lifetime warranty.

#### WOOD

Our factory features one of the largest woodturning facilities in Europe. We can draw on our traditional expertise to design and produce the mills in our factory from start to finish. Our turning skills can transform a rough block of wood into a stylish table mill.

#### PAINTING

Once the wood has been turned in our workshops, it is painted in a wide range of colors, whether natural finishes, bright colors, matte tones or lacquer.

#### ASSEMBLY

All Peugeot mills are assembled in our workshops. Every piece passes through our employees' expert hands as they constantly focus on scrutinising every mill for the slightest imperfection and assembling our mills with the greatest of care. As such, we can guarantee that our products offer the ultimate in quality and harmony.

PEUGEOT INVENTS  
POWDERED SALT

ALL THE PLEASURE OF SALT  
WITH 3 TIMES LESS SALT

**Material innovation: Zirconia**

- Material used in particularly demanding fields: health, cosmetics, automotive, aeronautics
- Corrosion resistance even in areas of very high humidity
- Exceptional hardness, higher than conventional ceramic or steel
- Complete safety allowing "tooth-to-tooth" contact
- Lifetime warranty

**Meticulous design**

Studied with the greatest precision, the design of the mechanism ensures a perfect grind of the world's salts and aromatic blends.

The exceptional hardness of zirconia, combined with the design of the mechanism, are at the heart of the performance of the Zirlion mechanism, allowing tooth-to-tooth contact, and therefore powdered salt grinding, without the risk of altering the mechanism.

**SPECIAL WET SALT**

The very high humidity of wet sea salt requires additional adaptations of the Zirlion mechanism:

- Patented brewing fins
- Corrosion-resistant materials (mill axis)

**Powdered Salt**

Unrivaled milling performance:

- The powdered salt grind delivered by Zirlion offers the pleasure of salt while limiting its harmful effects
- Extreme fineness of salt
  - Immediate perception on the taste buds
  - All the pleasure of salt with a smaller quantity, thus limiting its harmful effects

From April 2026, all salt mills will be equipped with the Zirlion mechanism except the Mignonette and Palace models (September 2026) and the Elis Sense electric mill.

# Grill to Table

## The art of barbecuing

Much more than just a way of cooking, the barbecue is now a real art of living, synonymous with sharing and conviviality. Easy to use, it invites creativity: meat, fish, vegetables, or even desserts... everything lends itself to the game of grilling!

Carefully manufactured in France, in our factory located in central Brittany, our products ensure an even distribution of heat. The result: controlled cooking, preserved flavours.

Thanks to their intense and shiny black colour, our products combine performance and elegance: real cooking instruments that turn into serving dishes, keeping dishes warm thanks to the natural inertia of the ceramic.

**PLANCHAS** Wide cooking surface and high edges to handle food without splashing. Built-in groove for collecting juices, and rounded edges for a comfortable and secure grip.

## Atlas, the new ultra-light tajine dish

The Atlas ceramic lid is **made in France**, in our workshops in Languidic, Brittany.

The cover is **pressed**, trimmed, and then **fired** after a controlled drying time to ensure consistency and performance of the ceramic.

An essential step in making Tagine cones; this operation consists of manually removing excess material and rough edges with a tool specially designed in our workshops to give a **unique finish to each piece**.
